

Public Sector — Sovereign Translation

Client: MENA Government Program · **Region:** MEA

Workload

Bilingual 34B model, 12M requests/day

Deployment topology

2 Core IDC (Dubai, Riyadh) + Sovereign Edge

Measured results

Metric	Value	Note
Response latency	42 ms	p95
Sovereignty	100%	in-country
Concurrent users	1.8M	peak

Methodology

Figures anonymised at customer request. Latencies measured at the client SDK boundary over rolling 14-day windows. Cost deltas reference the customer's prior production stack, normalised per token-equivalent.
